Side-vented endodontic irrigation needles. Confirm gauge, length, connection and the required tip design.

Pack: 100

£16.80

inc VAT

Benchmark pending - previous price

Pricing and ordering

Supplier panel

Medisave, Medical Supermarket, MediSupplies, F2 Medical Supplies, Barrier Healthcare and Incidental. Public product prices were checked on 04 October 2026. None of the product codes has six verified comparable offers.

How prices were revised

For each product, one comparable standard single-pack offer per supplier is used. Ex-VAT offers receive 20% VAT once. Pack counts are normalised where necessary, then available comparable offers are averaged and rounded to the nearest penny. Prices were adjusted both upwards and downwards. No retail markup multiplier is applied.

Coverage and pending benchmarks

An average requires at least two verified offers. A single-supplier reference is clearly labelled. Missing supplier prices are excluded rather than treated as zero. Benchmark-pending items retain their previous numerical price; existing quote-only anaesthetic lines remain price on request. The accompanying workbook identifies every offer and unresolved code.

Pack and specification checks

A normalised pack price is an indicative pro-rata equivalent; a supplier may sell only its original pack. Brands, selected sizes, grits and formulations must be confirmed before ordering. Clinically different or unverified variants were excluded. Public list prices may include out-of-stock or backorder listings and exclude delivery.

Images and quotations

Photos remain representative examples from the earlier catalogues. Provide the product code, pack quantities, required specification and delivery postcode when requesting a quotation. Availability, delivery and final commercial terms will be confirmed in writing.
